Letter from President

Dear CEMSies,

Another wonderful semester at WU has already come to an end and to me it is crazy to think how fast the last two years have passed by. I truly hope that these past few months or years were as incredible for you as they were for me. I am pleased to cherish this semester, filled with amazing memories and new friendships with awesome people from all over the world, with this beautiful yearbook. Looking through these pages proves that CEMS is so much more than just an excellent academic program.

I would like to take this opportunity to thank all members of our CEMS Club Vienna, who organized so many amazing events throughout our time together and dedicated a lot of energy to shaping this great semester. I am honestly amazed with what we have achieved as a team and it makes me so proud to have been part of this semester's CEMSational group!

Another special thank you goes to our CEMS Office, our Corporate & Social Partners, as well as professors and all of the academic staff who support us and contribute greatly to a wonderful CEMS experience at WU.

And of course, the success of this semester would not have been the same without all of you. So, on behalf of the whole CEMS Club Vienna, I would like to thank all Cemsies for joining the CCV events and activities and keeping the CEMS spirit so high throughout the whole semester. You are what makes CEMS at WU so special!

To all the exchange students of this semester, it has been such a pleasure having you here. I wish you a safe trip back home and hope you will visit us in lovely Vienna every once in a while. To all the 1st Years spending the next term abroad, I wish you an amazing exchange semester, great experiences and unforgettable memories. Take some CEMS spirit with you and come back with even more. For us 2nd Years, the CEMS Master ends after this semester, however, our CEMS Journey certainly doesn't! Wherever this journey may lead us, here's to countless reunions, celebrations, gatherings and get-togethers around the world. Great friendships are meant to be remembered for many years to come. Let's keep in touch and make all the amazing memories collected always be remembered.

I really look forward to seeing you all again somewhere around the world and wish you all the very best.

Yours truly,

David

"Wherever this journey may lead us, here's to countless reunions, celebrations, gatherings and get-togethers around the world."

Messages from CEMS WU Team

Dear CEMS Students, it is my pleasure to complement this yearbook with my best wishes for your studies and first jobs. We enjoy working with the CEMS Club on continuously improving the programme with new courses and more interesting events that provide for the special content and spirit CEMS is about. By taking the opportunities that suit their individual needs, students may optimize the programme for themselves. Exemptions beyond those opportunities would feed on everybody else's benefit.

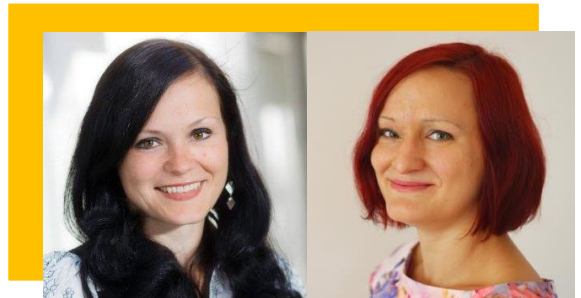

Kind regards,

Jan Hendrik Fisch, WU CEMS Academic Director

Dear students, it was a great pleasure for us to work with you over the last couple of months. You were and are a bunch of very interesting and inspiring people. We wish you a lot of fun during your holidays, we look forward to meeting some of you again next term and for those leaving us a lot of luck and success for your future career. We'll miss you and we hope to hear from you now and then!

Best wishes,

Jana Kolenc and Jana Salot, CEMS Office

It is a privilege to teach in the CEMS program, particularly for me as a CEMS alumnus (class of 2013). I am excited to see how students' commitment to hard work yet increased from when I was a CEMS student. At the same time, the social activities and fun students have during the two-year program has definitely not decreased in the last four years either. The CEMS classes are where I push students to see what can be expected from smart and committed students. I am convinced that your drive to outperform will boost your careers. I wish you all the best and hope to see many of you again, as guest lecturers, business project partners, or academics.

Thomas Lindner, Assistant Professor

Messages from Corporate & Social Partners

Fellow CEMSies, I hope you all had another memorable semester in Vienna and look forward to your well-deserved summer break! Congratulations to all graduates on finishing your double-degree! Now it's time to take your great spirit, motivation, broad network, international experience, and open-mindset with you and get ready for the next ride! I truly wish you a great start and smooth transition into working life – may it be with our growing CEMS family at A.T. Kearney or any other firm of your choice!

Tim Müller, A.T. Kearney

Since the beginning of 2017 zeb has been proud to call itself an official CEMS Corporate Partner. Looking back, our first term as Corporate Partner was a tremendous success. We offered the Skill Seminar „Train the brain for your job-aim“, participated in the Rotation Dinner, took part in the admission interview process and developed a Business Project on “Digital Banking” together with ten remarkable Cems students.

Looking ahead to the winter-term, we aim to stay just as active in our cooperation with Cems as ever. We will co-host lectures, offer a case study event at our office, take part in the Cems Club Rotation Dinner and of course participate in the Career Forum in Budapest – a true highlight also for us!

We are very pleased to have met so many talented and ambitious Cems students. What makes us especially happy is that we have welcomed eight Cems students as permanent employees and five students as interns in the Vienna office alone over the past 1.5 years.

We look forward to welcome even more Cemies to our “zeb.family”.

We take great pride in being part of the CEMS program and accompanying many of you during your last semesters at university. Thank you to all the students we have met this past year who have made the first “term” of our official corporate partnership an amazing and incredibly fun experience. We look forward to many more events to come!

Yours,

Katalin Nagy, zeb

"We are very thankful that the CEMS Club Vienna decided to support us in improving the education system in Southern Tanzania. With the money you raised at the Charity Run we can build schools and provide equipment to those in need. We really appreciate this wonderful initiative and want to thank you for your support!"
