To whom it may concern,

This is to acknowledge that I, Dr Ing. Daniel Micallef supervised Mr. Florian Robic for three months during the summer of 2019.

Mr. Robic is a hard working, resourceful and diligent student showing already, at such a young age, an innate ability of doing research. He is focused and has above average problem solving skills. During his internship he worked on parametric optimisation of passive buildings using a novel Big Bang Big Crunch technique. Also noticeable is Florian's commitment towards his goals. Strongly recommended overall.

Regards,

A handwritten signature in blue ink that reads "D. Micallef". The signature is written in a cursive style and is positioned above a horizontal line.

Dr Ing. Daniel Micallef B.Eng. (Hons), PhD (TUDelft)

Lecturer
