## Reference Mr. Fabien Vacher

Mr. Fabien Vacher did an apprenticeship in the Berlitz language school in Darmstadt, Germany from June to August 2006 at which time I was the local school director.

Berlitz is a world-renowned language school specialized in language training for children and adults as well as business seminars. The language center in Darmstadt yearly delivers about 20,000 language lessons in English, German, French, Spanish, Portuguese, Chinese and various other languages.

During his apprenticeship Mr Vacher had the following responsibilities and projects:

- Organization of an art exhibition including the complete creation of all marketing materials as well as the administration of the marketing budget for this project
- Organization of the vernissage for the art exhibition
- Competitor analyses of other language schools in Darmstadt
- Re-Design of the local website

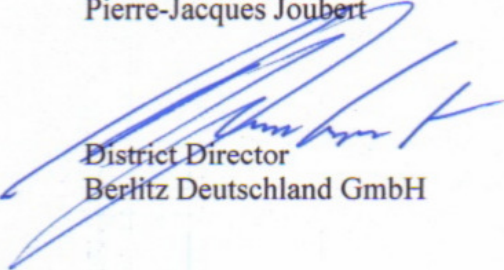

In order to realize these projects Mr. Vacher also worked closely with the European marketing department in Frankfurt. Mr. Vacher carried out all his duties and tasks to our fullest satisfaction. He impressed with the highest dedication to the language school and executed his work with great diligence. He integrated himself in the team very quickly and was popular with all staff members due to his amenable nature and friendly way of communicating. He showed the highest degree of responsibility and professionalism and was able to work independently already from a very early stage onwards.

I was particularly impressed with his original marketing proposals and concepts. As a result of his work the language school was able to offer a highly acclaimed and complemented art exhibition as well as to successfully reposition its marketing strategy.

My best wishes accompany Mr. Vacher whom I can highly recommend for any program he may apply for.

Düsseldorf, Germany, May 2008

Pierre-Jacques Joubert

District Director  
Berlitz Deutschland GmbH
