

Dear Principal:

I have been impressed with Gerald Holton. I have worked with him through the 4 h program in Fairfield County with our youth. This young man is reliable and dedicated to our youth and the youth have a lot of respect for him. His ability to work with Jr high and high school youth is outstanding. Gerald has a way with youth to get them to understand what the goal in their projects and how to present themselves to a judge. He will have fun at times but he definitely knows how to get the youth to listen.

With our society today our youth need adults like Gerald to get them through there courses and he is the man for the job. Gerald has given the youth self- confidence and the knowledge of how to present themselves to other adults in a respectful way. Gerald will meet with the youth families and help them to understand what the child needs to continue his success.

Gerald is a very hard working man and gives it his all to get the youth to understand there courses and how to study. I have two grandsons in the program and my one grandson states he does a great job so I understand how to present my project and how to get it done in the right way.

Gerald has my Highest Recommendation for the job.

Sincerely:

Cynthia Gilfillen
