

The Importance Under The Term “Tolerance”

Tolerance is an attitude where someone gives a freedom to others and corrects of it's diversity as a confession of human right. Tolerance is the most important aspect in the multicultural and multireligion of life, as happened in Indonesia nowadays. Tolerance is unlimited just on one of aspect of life. It's include tolerance of religion, culture etc. Nothing in this life is most correct while another is wrong. There for, we have to see a trucht on the diversity and agree on the disagreement. So that, to create a harmony and peace of life we have to be acceptance on any diversity, mutual respect for both individual freedom and social freedom, positive thinking and trustworthy of the society. So that, every people may implement each of their obligation of life.

As we know, young generation is agent of change. As a young generation of Indonesia, we have to begin a change from ourselves to habituate a tolerance. We have to be a progressive young generation that has a deep enthusiasm on every issues, especially in the term of the tolerance that happened nowadays. So that, we could persuade others to do the same as we done. It won't happen instantly, we have to make others convincing with our persuasion. First, we have to inform about the importance of tolerance and it's effect to the society. After that, we have to give a real contibution by involved ourselves to motivate them to be tolerant. We can make a tolerance class at the school for begining where we teach about tolerance at the students and make it as their daily habit on every aspect of their life style, for example: social, education, cultural, religion etc. So that, they will study about tolerance both theoretically and practically. Then, they will able to make tolerance as their daily habit in the society.

By joining this programme, i'm sure that it will make me being an open-minded person. However, it's a way to learn new knowledge and skills of using interdisciplinary approaches by integrating theory and practice of tolerance. So that, it'll make me have exciting experiences and meet new friends from around the world with a different background of life, culture, religion and thinking. In addition, it'll make me have a big appreciation/ tolerance of the diversity from around the world that i found there. So that, i'll gain a new prespective of my thinking. And it'll make me understand more about the importance of the tolerance to cover up the diversity for built the peace of the world. So that, it'll create a harmonic condition of life. There for, i'm highly motivated to join this program. The theories, practice and information that i'll get in this

programme will benefit me immensely in the achievement of remarkable progress, fulfilling my aspiration to become an accomplished professional in the field of tolerance. So that, i'll find a good innovation that will able to give us a big advantage in the field that related to the tolerance to the society.
