

Letter of Recommendation

Mr. Giulj Pierre-Luc worked during his study in Grenoble ecope de management, , as Intern student in the Photovoltaic testing laboratory of our company from Jun 04 to July 27, 2012.

The assigned work scope was assisting engineer for the testing of PV modules.

He has to finish a report on photovoltaic development in the world. He showed good understanding of the development of photovoltaic and strong desire to explore knowledge.

Then he also helps VDE employees to improve in English communication skill. In this process, he demonstrated excellent language skills and good patience.

Mr Giulj Pierre-Luc is appreciated by all VDE employees due to his team work attitude. He is eager to learn and also willing to teach.
