Paris, 24 December 2008

**To whom it may concern:**

**Letter of recommendation**

Rémi Berland has been working for our company as Junior Business Development Manager in our Marketing & Sales department from 1<sup>st</sup> of July to 23<sup>rd</sup> of December 2008.

During his training period, Rémi Berland has been requested to follow up different commercial projects linked to the animation of our client portfolio, to develop the promotion and the communication of our trend tools and "Matinées Flash" workshops.

During the time he worked with us, Rémi Berland showed ability to react, to anticipate situations and made valuable propositions to improve our processes. Besides he successfully integrated PeclersParis teams and showed a good creative sense.

Our Sales Manager whom he was reporting to, has indeed appreciated his involvement, his autonomy and efficiency, and is convinced that he has in hand all the assets for a successful integration and a fruitful collaboration with his future employer.
