His & Hers

Dior redefines the ultimate power couple with two irresistible scents.

The perfume layering ball is now in your court – the first ever oil-based perfume lets you mix and match it with other scents from the J'adore range, meaning you become the master of your own scent. A state-of-the-art bottle and cap allows you to choose the number of drops, to be applied on pulse points such as your wrists and neck.

Posh pirate Johnny Depp is the face of Sauvage, one of the main reasons why you need to buy this for your SO. Described by perfumer François Demachy as “contemporary, strong, and masculine”, it’s made for a man in a sharp suit, or at least one who can rock a hybrid of luxury and underground as well as Depp.

DIOR J'ADORE TOUCHE DE PARFUM EDP 20ML, RM400.

DIOR SAUVAGE EDP 100ML, RM380.

News Kids On The Block

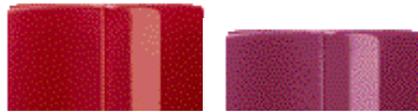

We're all for new sunblock formulations – but what excites us even more is when they're not only safe for you, but safe for the environment, too. It recently came to light that sun creams kill coral and pollute the marine environment, and that's pretty bad news. 25,000 tonnes of sun cream is washed off into the ocean each year, killing coral in just 48 hours. Good news for those of you that are water babies, though – Algoterm's new Algosun sunscreen range is certified to be non-ecotoxic, and contains no chemical filters or parabens to harm ocean life. Feel free to just keep swimming.

With 12 existing shades consisting of pinks, nudes, and reds, you can now add another three on to your collection – Fu(n)chsia, Plum Plum Girl, and Red-volution. Trust us when we say that you'll fall in love at first swipe.

STAIRWAY TO HAIRVEN

The longer your hair, the longer your list of hair woes ... until now. Introducing Pro Fiber by L'Oréal Professionnel – the new standard in haircare.

Hot off the research labs comes the most sophisticated hair care treatment technology to date – the APTYL 100 molecular complex, which visibly repairs hair from root to tip, as if it was never damaged. Just spend a lunch hour at the salon to seal it deep within your hair fibres, then re-activate it with at-home products for up to six weeks. There are three Pro Fiber ranges, each designed to treat a specific level of hair damage.

For all-star service, look for Moses at Cu's & Do's.

Try it at Cu's & Do's Hair Lounge, 3, Jalan Solaris 3, Solaris Mont Kiara, 50480 Kuala Lumpur. Tel: 012-3052 21214.

What's Your Fiber?

Selena Gomez

You have virgin hair, but often use elastics to hold your hair in place, and rarely protect your hair before lengthy sun exposure. It's healthy, but frizzy with a lack of shine.

L'ORÉAL PROFESSIONNEL PRO FIBER RECTIFY RANGE.

YOU NEED ...
LEVEL 1: Rectify

With delicious notes of honey, magnified by the delicate scent of frangipani and sparkling citrus fruits, Rectify's range targets damaged cuticles, dull hair and thin ends.

Beyoncé

You've dyed your hair, and often use heating tools to dry and style it.

L'ORÉAL PROFESSIONNEL PRO FIBER RESTORE RANGE.

YOU NEED ...
LEVEL 2: Restore

Restore opens with a bouquet of peony and iris, leaving a seductive trail of cedar, sandalwood and cardamom. Great for coloured hair that's damaged by frequent styling, rinse out to instantly smoother, more supple tresses that are silky to the touch.

Katy Perry

Sometimes people mistake you for a My Little Pony. Your hair is bleached, and the colours change like a rainbow disco strobe.

L'ORÉAL PROFESSIONNEL PRO FIBER RECONSTRUCT RANGE.

YOU NEED ...
LEVEL 3: Reconstruct

Reconstruct's defining note of creamy vanilla is highlighted with spicy accents, as it leaves super damaged hair nourished, bouncy and radiating with vitality.

AFTER EVERY FOURTH SHAMPOO, apply the L'Oréal Professionnel Re-Boost instead of your usual Pro Fiber conditioner. Leave on for five minutes, then rinse out for intensely nourished hair that detangles easily. Once dry, hair will look shiny, silky and tamed. Plus, your treatment effect will be extended.

L'ORÉAL PROFESSIONNEL PRO FIBER RE-BOOST (6 X 20ML), RM130.
